NZ Disabled Swimming Championships Combined Class Events:

- AWD with different classes compete in the same event for the same medal.
- This may mean that a swimmer touching first may not be the winner.
- Results are determined by a percentage of the World Record to compare the individual swimmers' results.

Placing Calculations

- Placings are calculated as a percentage of the World Standard as at January 2008 for the swimmers class.
- The swimmer with the lowest percentage against the World Standard takes first place; the swimmer with the next lowest percentage against the World Standard takes second place, and so on.

Medal standards as detailed below will be used to determine the medal allocation:

- If 3+ competitors - 1st, 2nd and 3rd receive gold, silver and bronze based on their placing as calculated against the World Standard.
- If 3 competitors only - 1st and 2nd receive gold and silver. Bronze will be awarded if the 3rd finishes within 160% of the current World Standard.
- If 2 competitors only - 1st receives gold. Silver will be awarded if the 2nd finishes within 150% of the current World Standard.
- If 1 competitor only they receive gold, only if they finish within 140% of the current World Standard.
